PRODUCT DESCRIPTION

Agrozen Life Sciences hemp e-liquid offers the full spectrum of cannabinoids such as CBD, CBN, CBL, CBDA, CBG, among others to provide maximum whole plant extract benefits without any psychoactive effects. You'll enjoy the natural leafy flavor through smooth pulls of your vaping device. Our high-end vape juice requires a quality vaping device as the full spectrum CBD liquid is denser than other isolate e-liquid. The full spectrum hemp e-liquid is available in 500mg and 1000mg cannabinoid (CBD) potencies with natural, mint, or strawberry flavors. As everyone's body type and symptoms are different, there is no daily recommended dosing so self-dosing is required. Per an industry publication, typical minimum daily dosing is 25mg of CBD twice a day. Keep in mind, more is not always better.
